PERFORMANCE CERTIFICATE

Air Force Station Gurgaon has used Shaktiman Platform Machine manufactured by Tirth Agro Technology Pvt Ltd (Rajkot : Gujarat) for the last two months. The machine was provided to Indian Air Force on Demo basis by Municipal Corporation of Gurgaon and the machine is used for tree pruning. The performance of the machine is very good, easy to use and satisfactory. I have found the machine to be very user friendly and has carried out pruning in a very efficient manner. Machine is very good, smooth and easy for the operator. We are satisfied with the performance of the machinery to meet tree pruning requirement of this Air Force Station.

with best wishes
